SUPT. MARK SMITH,
R. E. Lee Institute, Thomaston,
Retiring President, G. H. S. A.

As President of the Georgia High School Association, Mark Smith made worthwhile contributions to the Association. He has served faithfully and his rulings have been prompted always by his sense of fair play.

The President's Message

I assume the duties so long and well performed by our beloved Mark Smith, with a feeling of profound unworthiness. I am fully cognizant that the contributions to improved secondary education made by our Association through the years have been the result of our pooled judgment, and I am confident in my belief that our cooperative endeavor will solve the problems which now face the high schools of our State. In this spirit and in this belief I beseech the continued active cooperation of the officers and members of our Association.

In addition to the continuous evaluation we must give our established activities, I suggest three responsibilities which need our thought and attention:

1. Improving instruction in the high schools. Implicit in our constitutional purpose of "promotion of education in Georgia" is the Association's responsibility to help the teachers of its member schools grow in professional effectiveness.

2. The two-year high schools. Efficient organization in many of our rural counties demands several community two-year schools and one four-year high school. Our Association has a responsibility to promote a high standard of work in these two-year schools.

3. High School-College relations. We have a responsibility to promote the growing tendency toward liberalization of college entrance requirements. An inevitable corollary to this responsibility is evolving and adapting qualitative standards to supplement our existing quantitative standards of accreditation.

It is my sincere hope that the feeling of cordial fellowship, sympathetic understanding, professional helpfulness, and good humor which has always characterized our activities will continue unabated.

E. V. WHELCHER, President,

Georgia High School Association.

Adel, Georgia.

President Caldwell's Message

To Members of the Georgia High School Association:

It is gratifying to us at the University to observe the splendid progress which the high schools of our State are making. Their buildings and equipment are constantly being improved. Their curricula are being revised so that students will receive not only broader and more comprehensive training but training which will better equip them to meet the specific problems with which they will be faced when school days are over. It is apparent also that high school teachers of the State are better prepared for their work than ever before and that they are giving to their students instruction of high quality. Much of the credit for this progress belongs to the Georgia High School Association. Its officials and members have labored tirelessly to bring about needed reforms and improvements and to awaken the public to a consciousness that the State's welfare and progress are dependent on an adequate system of public education. On behalf of The University of Georgia, I congratulate the High School Association on its splendid accomplishments and wish for it continued success in the carrying out of its program.

The High School Association lost a splendid leader when its veteran president, Mr. Mark Smith, resigned. The Association has an able successor in Mr. E. V. Whelchel. To the Association's new leader all of us at the University pledge our support and cooperation.

The work of Mr. Harold Saxon, University High School Inspector, is doing much to strengthen the bonds which bind together the University and the High Schools of the State. The better understanding which is resulting from this closer relationship will be of inestimable benefit to the High Schools and the University.

We always welcome to the campus of the University the teachers of the State and we hope that the members of the Georgia High School Association will visit us often. An office is set aside here for the Association and we hope you will make it your headquarters when in Athens.

HARMON W. CALDWELL, President,
The University of Georgia.

It is a ready writers' contest and evidence of prememorized compositions shall weigh heavily against the contestants. Boys' and girls' essays will be graded separately and separate prizes will be given. The judges shall select a first, second and third place winner in each.

(c) Essays Sent. The prize essays for each district shall be sent just as handed to the committee of the District contest, with name on separate sheet, to the State Office, Georgia High School Association, Athens, Georgia, by April 25th, instead of having the pupils come to the State Meet.

Each school so grouped shall present two teams of two debaters each, one team on the affirmative and one team on the negative, the affirmative team debating at home and the negative away from home. Where schools drop out, consolidations are to be made by the District Secretaries, and schools must be ready to meet any assigned contestants on the final date. Should all the schools but one in a circle fail to debate, that school shall be declared the winner and be entitled to represent the school at the District Meet. These may be secured by remitting the above amount to Georgia High School Association, c/o State Office, Athens, Georgia. (Available September 15th).

(c) Judging and Scoring. In every debate there shall be three judges. A copy of the instructions as given below shall be given to each judge. In selecting the winners each decision shall count 1, and the vote of each judge shall count 1, a perfect score making 3 points. All of the preliminary debates in the several districts shall be held on the fourth Friday in March, at such hour as may be agreed upon, and in case of a tie, the tie must be settled the following Friday. Both teams of the winning school in each circle will be entitled to contest at the district meet and the school scoring the most points will be declared the winner. Should there be a tie in points scored by each school at the District Meet, it shall be decided by lot which school shall represent the district at the State Meet. Each school winning in the district shall send two teams, one affirmative and one negative to the State Meet.

(d) Instructions to Judges. A copy of the following instructions shall be given to each of the three judges: "The judges, who shall sit apart

during the debate, shall judge the contest as a debate, voting without consultation 'Affirmative' or 'Negative' on the merits of the question irrespective of their individual opinions as to the merits of the question. In deciding which team has done the most effective debating, the judges shall take into consideration.

1. Argument, by which is meant the substance and value of the proof offered and its skillful use in the discussion, and not the mere number of points.
2. Rebuttal, by which is meant impromptu argument used to refute the direct argument on the opposing side as made. New evidence may be submitted, but new argument is forbidden. A marked difference in the style of the rebuttal speeches and those of the direct argument is a sign of poor preparation.
3. Effectiveness, by which is meant the combination of good English with pleasing delivery.
4. In case of doubt, argument shall be stressed relatively more than delivery, and rebuttal work more than main speeches, consideration being given to the directness of the rebuttal and the non-use of manuscripts. At the close of the debate each judge shall indicate his choice by ballot and deliver it to the presiding officer who shall inspect the ballot in the presence of a representative of each school and announce the decision.

(e) No Visiting. It will be considered dishonorable for pupils, teachers, or followers of one school to visit the debaters of another for purpose of securing information when the two schools are likely to meet on the same question.

(f) Coaching. Coaching is necessary, but does not mean writing speeches. Coaching shall be limited to (a) instruction in the art of debating in general; (b) help in the collection of material bearing on the question; (c) advice, direction, suggestion, criticism, outline, and English as in regular class work; (d) drill on delivery. The coaching must be done by a teacher of the school and not by outside parties. Every school will ob-

serve these general principles of honesty for the sake of the pupils.

At least three days before the debate the coach of each team shall sign and send to the principal of the opposing high school the following statement: "I hereby certify that to the best of my knowledge the preparation of the argument for this debate has been the work of the members of my team who will participate."

(g) In all contests the debaters shall be separated from the audience and shall receive no coaching while the debate is in progress.

(h) Teams. The students constituting the debating team from a given school may not change from one team to another or change from the negative to affirmative, or vice versa, in order to give the school a stronger representation on that side of the debate. Each school must be represented by the same debaters or an alternate, at the District or State Meets, that represented the school for the first circle debate and on the same side of the question that they originally represented.

(i) In lieu of the above preliminary debates a District Executive Committee may authorize the preliminary method which has been used in the State Meet. This method has operated as follows: On the fourth Friday night in March, all teams shall meet at a convenient point. The affirmative teams shall speak before one set of judges and at the same time the negative teams shall speak before another set of judges. The judges shall be permitted to question the speakers to determine their ability in rebuttal. Each set of judges may consult and determine the best team that has spoken before them. These winning teams shall debate in the District Meet.

(j) At the State Meet, the Debate Committee shall arrange the district winners into two circles of five schools each, these to be designated as Circle No. 1 and Circle No. 2. The winning school in Circle No. 1 shall meet in debate the winning school in Circle No. 2 for the State Championship. The school which has the most points in the Circle Eliminations shall have choice of sides for the final debate. If the schools are tied in the number of points scored, sides shall be deter-

mined by agreement or by lot. In case of a tie between schools in the same circle before the circle winner is determined, the schools tied shall debate off the tie, each school furnishing two teams.

Sec. 3. Points Toward Winning Literary Cup.

(a) The winners in declamation, reading, boys' essay, girls' essay, piano, home economics, and spelling shall receive five points for first place, three points for second place, and one point for third place, toward winning the literary cup in both District and State Meets.

(b) The winner of the dual debate at the State or District Meet shall receive ten points and the loser six points toward winning the literary cup. Each school not going to the finals in the Districts shall receive points up to five, according to the number of points received in the preliminary contest in debate. This does not apply when the districts do not use the circle plan for preliminary debates.

(c) One-Act Plays at State or District Meet shall receive ten points for first place, six points for second place, and two points for third place.

Sec. 4. Number of Representatives. No student may represent his or her school in more than two individual events in the literary events at the District Meet. Each school may have only one contestant in each of the following: declamation, reading, piano, home economics, girls' essay and boys' essay.
